

Sharing photos of your get out the vote work? We want to see!
Tag us: @acluofga @splcenter

Video Instructions:

Share your videos with us! Here are a few tips for creating a great video:

1. Make sure your phone is set in the vertical orientation
2. Choose a simple background and make sure the background noise is as minimal as possible
3. Place yourself in the center of the frame, make sure you are not too far away from the camera
4. Be careful of lighting:
 - a. **Natural Light:** Always face the light source, never film with it behind you.
 - b. **Artificial Light:** If indoors, use soft lighting like ring lights to avoid harsh shadows. Evenly light the subject from the front and sides
5. Be yourself!
